

## **25-gauge Vitrectomy (from the Outside...)**

Luiz Eduardo de Aguiar Marques, MD (Irvine, CA), Faisal Jehan, MD (Irvine, CA), Bogdan Alexandrescu, MD (Irvine, CA), Baruch D. Kuppermann, MD, PhD (Irvine, CA)\*

### **SYNOPSIS**

We show 25-gauge surgeries with an emphasis on external aspects and our technique of tunnelled incisions. We also demonstrate situations that may occur during surgery (cannulas coming out, suturing...). Internal limiting peeling in a diabetic patient, aqueous misdirection, 25-gauge combined with temporary Eckardt keratoprosthesis and bimanual dissection are shown.
