

“What’s Old at the Movies”

William S. Tasman, MD (Philadelphia PA)

PURPOSE

This poster will present movie stars who through media reports are well known to have had eye disorders.

METHODS

Some movie stars have had significant eye problems, and many movies have dealt with eyesight. This poster will present movie stars who through media reports are well known to have had eye disorders. Included are Peter Falk who had retinoblastoma and Hume Cronyn who had choroidal melanoma, to mention two.

RESULTS

In addition, selected movies in which eyesight or loss of it has been featured such as Scent of a Woman with Al Pacino, Wait Until Dark with Audrey Hepburn, Woody Allen’s Crimes and Misdemeanors with Martin Landau, and others will be reviewed.
